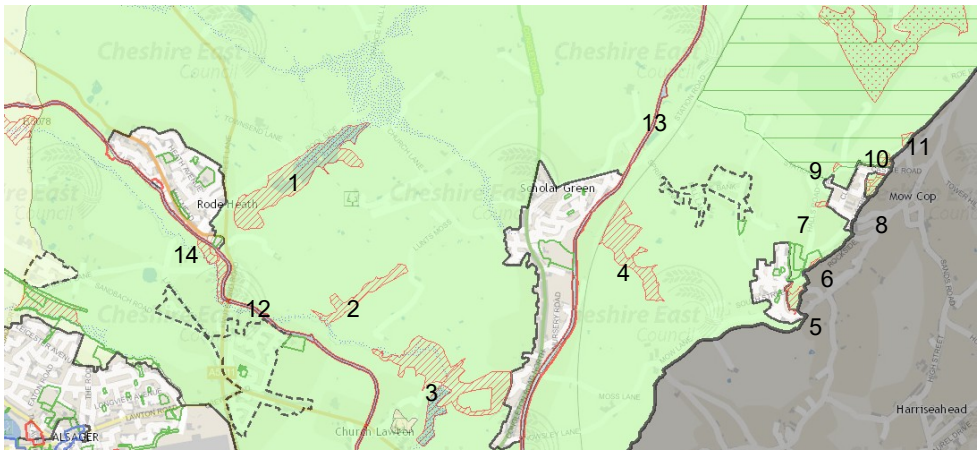
LOCAL WILDLIFE SITES
(FORMERLY SITES OF BIOLOGICAL IMPORTANCE) & TPOs
(INDIVIDUAL & GROUP) WITHIN THE CIVIL PARISH OF ODD RODE



1 Rode Pool SJ815575

2 Bratts Wood SJ820565

3 Lawton Woods (part) SJ824560

4 Hall O'Lee Clough (part) SJ838569

5 - 11 Mow Cop Heaths SJ858575

12 & 13 Canals

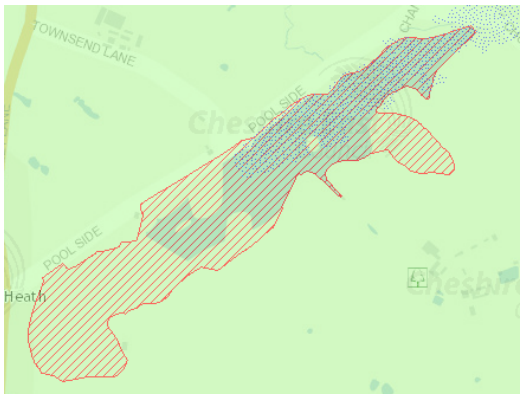
14 Woods by The Rise (part)

Sites are identified, selected, monitored and protected through the Local Wildlife Sites Partnership. Cheshire Wildlife Trust administers the system on behalf of the partners which include: relevant local authorities, local wildlife groups, Natural England, and rECOrd (the county biological records centre).

Existing Local Wildlife Sites are surveyed on a rolling basis every 5 to 10 years by experienced ecological surveyors. Survey results are then assessed against strict local **selection criteria** by a panel representing the members of the LWS Partnership. Potential new Local Wildlife Sites also undergo a survey and assessment process before being added to the list.

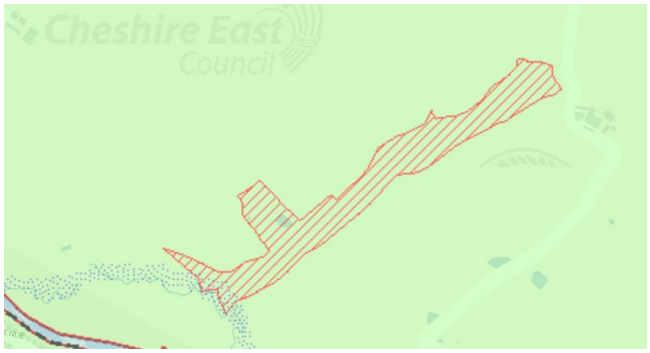
Following a survey all landowners are provided with details of why their site is important and information on how to maintain or enhance the special value of the site.

1 Rode Pool SJ815575



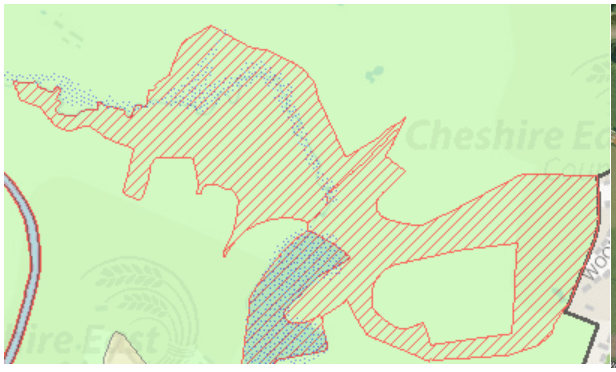
Rode Pool is a grade B site. Species recorded at this site within the past 10 years are shown in Appendix A. There are no TPOs associated with this site.

2 Bratts Wood SJ820565

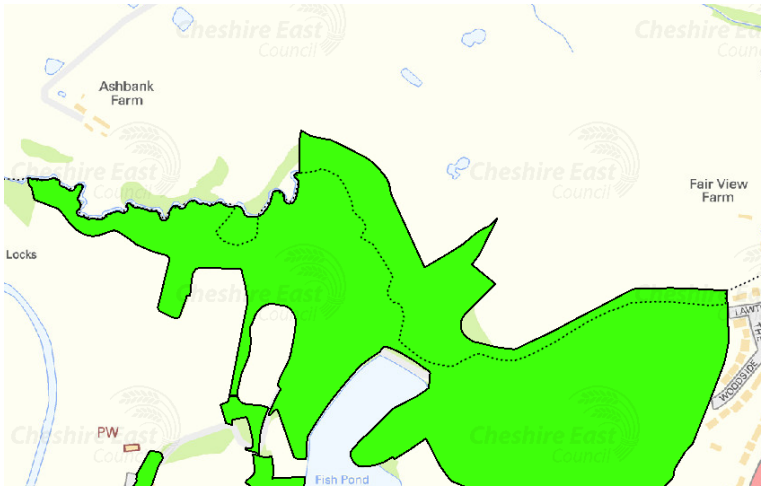


Bratts Wood is a grade B site. Species recorded at this site within the past 10 years are shown in Appendix A. There are no TPOs associated with this site.

3 Lawton Woods (part) J824560



Lawton Woods is a grade A site. Species recorded at this site within the past 10 years are shown in Appendix A.

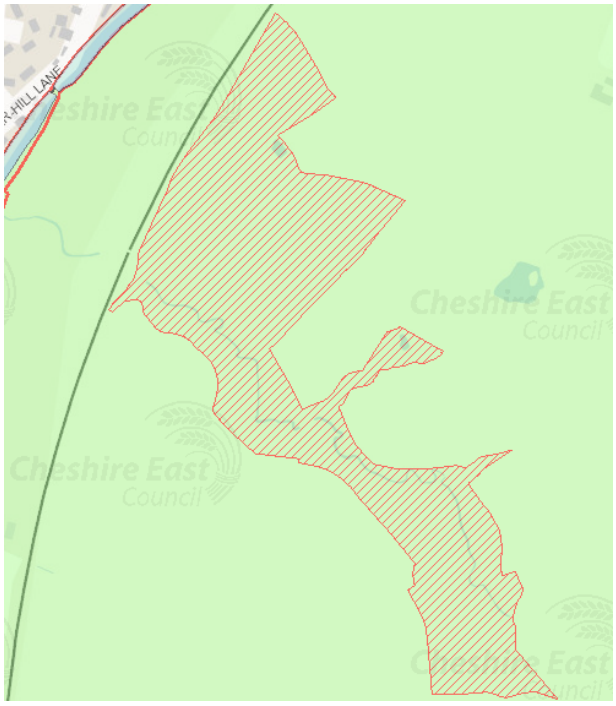


There is a group TPO for the wood (shown with Parish Boundary ....)

Title of Order: Congleton Borough Council (Lawton Hall No.2, Church Lawton) Tree Preservation Order 1994

Date of Confirmation: 10/01/1995
Date of Service: 25/07/1994
APAS Code 55-152
Designation: W5
Species: Mixed Deciduous and Coniferous woodland.

4 Hall O'Lee Clough (part) SJ838569



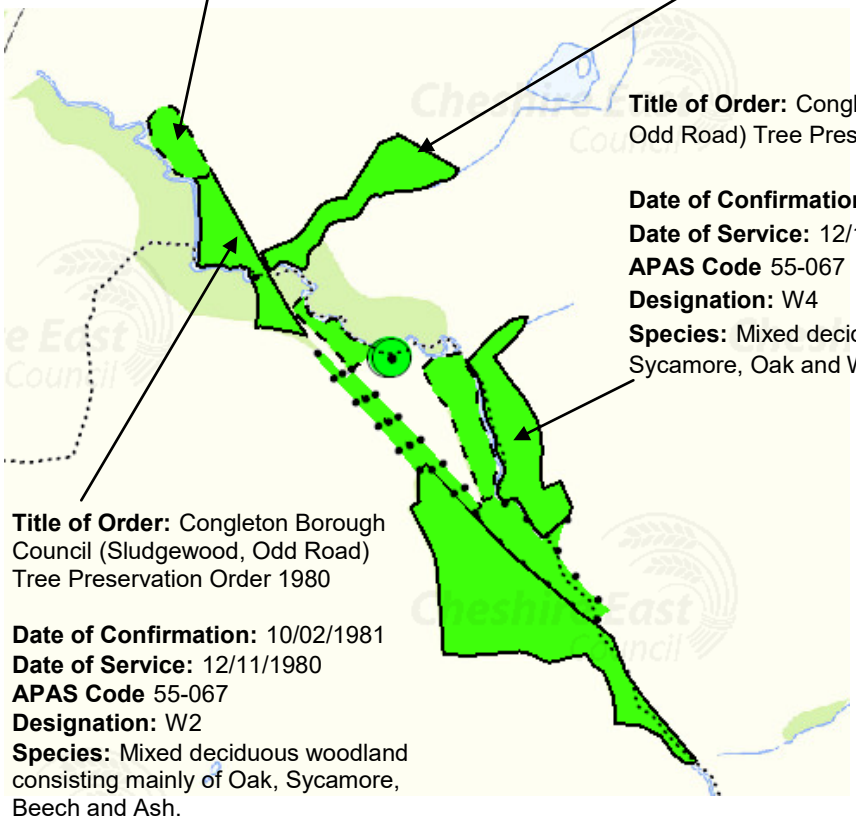
Hall O' Lee clough is a grade B site. Species recorded at this site within the past 10 years are shown in Appendix A. TPOs associated with this site are on the next page.

Title of Order: Congleton Borough Council (Sludgewood, Odd Road) Tree Preservation Order 1980

Date of Confirmation: 10/02/1981
Date of Service: 12/11/1980
APAS Code 55-067
Designation: G1
Species: Group consisting of one Willow and six Oak trees.

Title of Order: Congleton Borough Council (Sludgewood, Odd Road) Tree Preservation Order 1980

Date of Confirmation: 10/02/1981
Date of Service: 12/11/1980
APAS Code 55-067
Designation: W1
Species: Mixed deciduous woodland consisting mainly of Oak and Sycamore.



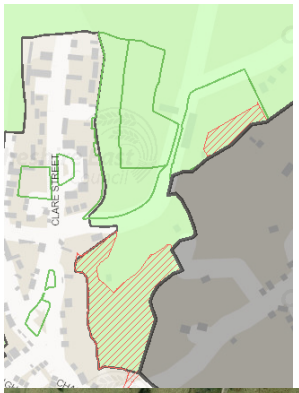
Title of Order: Congleton Borough Council (Sludgewood, Odd Road) Tree Preservation Order 1980

Date of Confirmation: 10/02/1981
Date of Service: 12/11/1980
APAS Code 55-067
Designation: W4
Species: Mixed deciduous woodland consisting mainly of Sycamore, Oak and Willow.

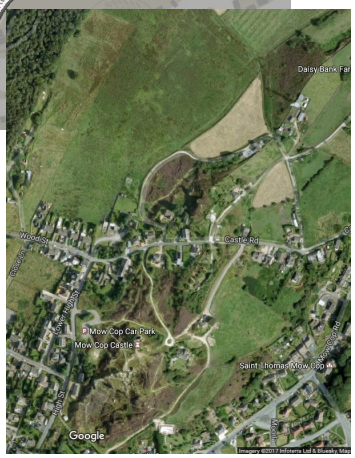
Title of Order: Congleton Borough Council (Sludgewood, Odd Road) Tree Preservation Order 1980

Date of Confirmation: 10/02/1981
Date of Service: 12/11/1980
APAS Code 55-067
Designation: W2
Species: Mixed deciduous woodland consisting mainly of Oak, Sycamore, Beech and Ash.

5 - 11 Mow Cop Heaths SJ858575

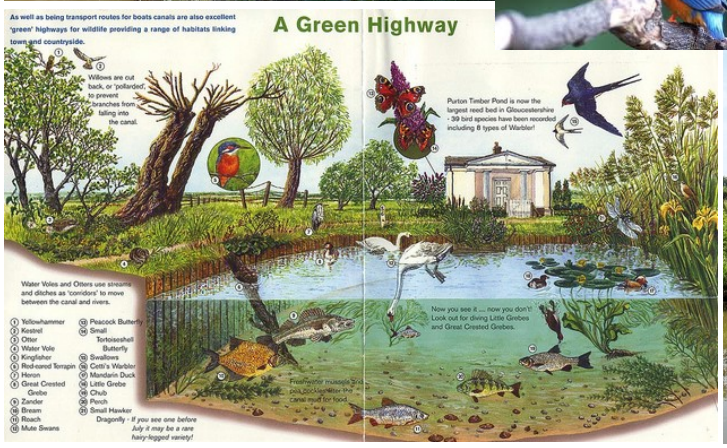


Mow Cop Heaths are grade C sites. These are 7 scattered remnants of Mow Cop Heath. Species recorded at these sites within the past 10 years are shown in Appendix A. There are no TPOs associated with these sites.



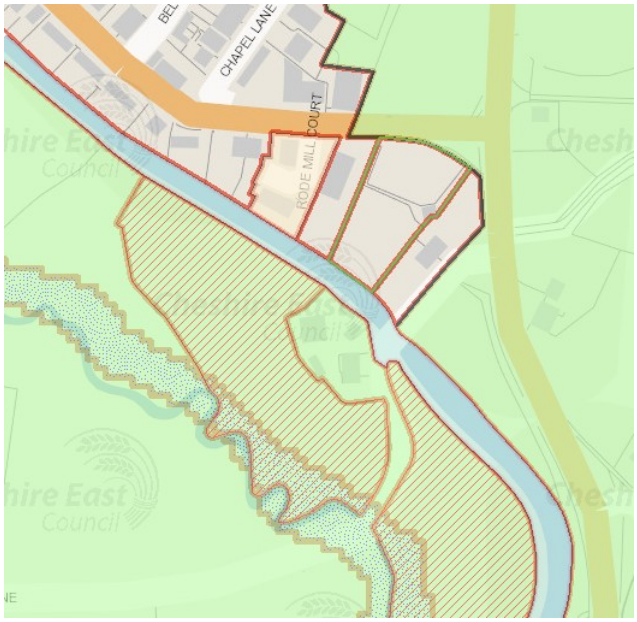
12 & 13 Trent & Mersey Canal and Macclesfield Canal (respectively)

Both canals are grade C sites. They are also Conservation Areas within the terms of Town & Country Planning (manmade structures are protected) with some listed buildings (bridges & milestones).

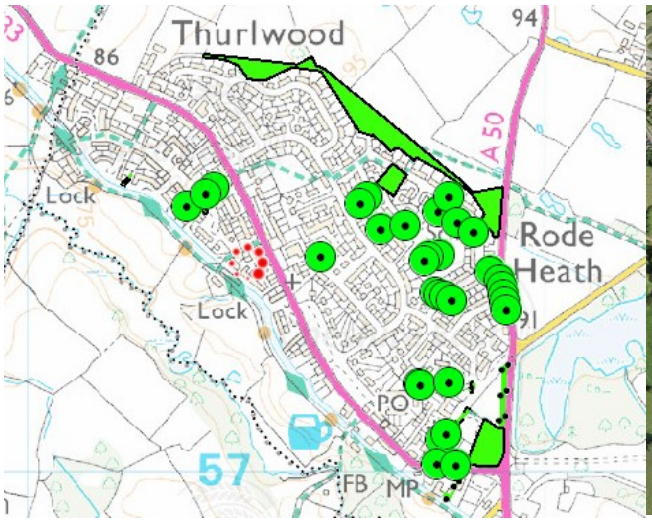


14 Wood by The Rise (part)

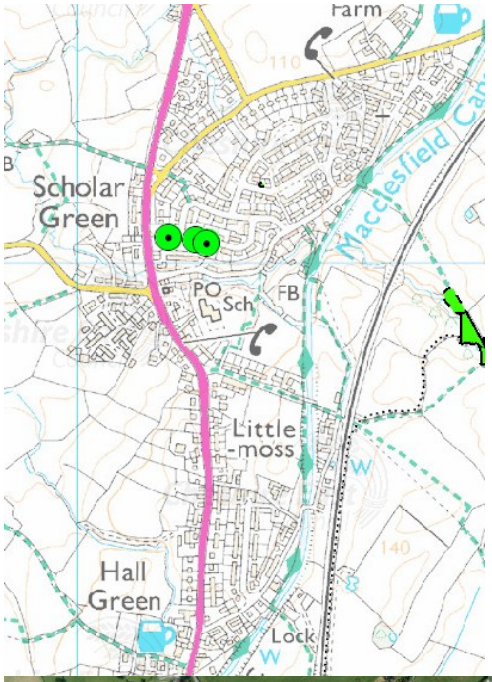
The area west of Cheery Lane is within Odd Rode Parish. There is a mix of trees and grassland. There are no TPOs associated with this site.



Other TPOs with Odd Rode: Rode Heath



Other TPOs with Odd Rode: Scholar Green



Other TPOs with Odd Rode: The Bank & Mount Pleasant
